

Comprehensive Plan and Water System Plan

PCE has helped many Minnesota municipalities with comprehensive planning of their water systems..

Services performed by PCE on these studies include:

1. Computer modeling of distribution system.
2. Population and demand analysis.
3. Evaluate existing production, storage and distribution system.
4. Evaluate water quality testing data for regulatory compliance.
5. Address the need for new production, treatment, storage and distribution system.
6. Give presentations to City Council or other governing entities addressing any future upgrades of the water system.

PCE has prepared Comprehensive Plans/Water System Plans for many Cities in Minnesota, including:

Progressive Consulting Engineers, Inc.
