

Lance Newman, P.E.

Project Manager

Mr. Newman has been a Project Manager with PCE since 1993. His responsibilities have included team management and design oversight for numerous transportation, civil site, and utility projects. He has the proven ability to adapt his management style to meet the desires of his clients, the needs of the project team, and the variation in project parameters.

Education

University of Minnesota
Bachelor of Science in Civil Engineering – 1993

Mn/DOT Utility Coordination
Training
Erosion/Sediment Control Specialist

Professional Organizations

American Council of Engineering
Companies
Transportation Committee
Scholarship Committee

Military Service

United States Naval Reserve Since 1989
Chief Petty Officer, 1999
Mobilized, Enduring Freedom,
October 24, 2002 – May 24, 2003

Current Registration

Minnesota

Utilities

- **Central Corridor Light Rail Transit, Minneapolis/St. Paul, MN** – Utility design coordinator for the project involving relocation and redesign of utilities to accommodate the Light Rail Transit.
- **Bus Rapid Transit-Cedar Avenue Corridor** – Utilities review and coordination for preliminary engineering and environmental documentation.
- **Interstate 494 Design Build** – Utilities Design Coordinator responsible for coordinating utility relocation requirements with utility owners affected by construction.
- **Hiawatha Light Rail Transit Project Office, Minneapolis, MN** – Utility Coordinator for the MnDOT, Metropolitan Council, and consultant design-build oversight team for the HLRT.
- **Hiawatha Light Rail Transit Utilities Coordination** – Utility Design Coordinator responsible for utility relocation requirements with utility owners affected by proposed HLRT construction.
- **Hiawatha Light Rail Transit Preliminary Engineering** - Utility Design Coordinator responsible for preliminary coordination with utility owners affected by proposed HLRT construction.
- **Utility Design T.H. 100, Golden Valley, MN** – Design of sanitary sewer and watermain affected by reconstruction of T.H. 100 in Golden Valley.

Civil Site

- **Hines Tower, Minneapolis, MN** – Site grading, drainage, utilities, and sidewalk.
- **Piper Jaffray Tower, Minneapolis, MN** – Site grading, drainage, utilities, and sidewalk.
- **Target Stores, North St. Paul, Burnsville, and Brooklyn Center, MN** – Site grading, drainage, and utilities. Performed on site inspection during construction.
- **U.S.P.S. Post Offices (6), Metro Area** – Site grading, drainage, and utilities design. Performed on site inspection during construction.
- **CenterPoint Energy (4), Metro Area** – Responsible for survey, design development, site grading, and utilities, and parking lot layout for facilities in Minneapolis, Blaine, Coon Rapids, and Golden Valley. Up to 20 acres of parking.
- **Roseville Medical Center, Roseville, MN** – Site grading, drainage, and utilities.
- **Parking Lot Design, MN Army National Guard, West St. Paul, MN** - Reinforced concrete parking lot, site grading, and drainage.
- **Apron Repairs, 934 Tactical Airlift Group, Twin Cities International Airport, MN** – Repair of 16,385 square feet of aircraft apron, resealing of 88,656 linear feet of joints, and 560 linear feet of crack repair. Work involved documentation of existing conditions, evaluating the need for repair, details of repairs, and preparation of plans, specifications, and estimates.
- **Water Treatment Plant No. 1, Blaine, MN** – Watermain yard piping, site drainage, grading, and storm sewer design.
- **Water Treatment Plant No. 2, Blaine, MN** – Watermain yard piping, site drainage, grading, and storm sewer design.
