

Project Title Water Rate Study	Contract No.
Location East Grand Forks, MN	Project No. 11020

Assign a rating value from 1 to 10 (1 is low, 10 is high) to each of the items listed below to show PCE's performance on the project.

	<u>Rating</u>
1. Project Management	9
2. Communications	8
3. Timing	10
4. Cooperation	9
5. Quality of final Product	10
6. Would you consider PCE for Future Work?	Yes
7. Future Projects May Include:	

Other Comments:

It would have been helpful to know that the data required to be input into the spread sheet tables received from PCE would be the primary data for the computations.

I assumed that the additional information on budgeted and 5 year capital budget I provided separately would have been more fully utilized. I realized very late in the study that I had not fully included all water related capital from my 5 year CIP (from several tabs) into Table 5. That had an impact on the final results. I should have allowed myself more time to extract and proof data on my end for the primary tables.
