

PROGRESSIVE CONSULTING ENGINEERS, INC.

FIRM BACKGROUND EXPERIENCE

Progressive Consulting Engineers, Inc. (PCE) is a 7-person, minority owned and operated engineering firm providing a full range of services in utility coordination, transportation, water supply, and civil design. Since inception in 1979, PCE has gained a reputation of providing quality professional services in a cost effective and timely manner.

Representative Projects Include:

Utility Coordination

Central Corridor Light Rail Transit
Interstate 494 Design Build
Hiawatha Light Rail Transit
Bus Rapid Transit – Cedar Avenue Corridor

Transportation

T.H. 120, Oakdale/Maplewood
CSAH 19, Crow Wing County

Water Supply

Goodview Water Treatment Plants (2)
Blaine WTP Nos. 1, 2, and 3
Edina WTP Nos. 2, 3, and 4: Rehab and Recycle Basins
Brooklyn Park 3 Million Gallon Water Reservoir

Civil Design

National Guard Armory
CenterPoint Energy – Multiple Sites
USPS – Multiple Sites
Target Stores – Multiple Sites

RELATED PROJECTS

CIVIL DESIGN

1. CenterPoint Energy – Numerous Sites.
2. Qwest – Numerous Sites.
3. Target Stores – South St. Paul.
4. Renville Park Improvements, Dike, and Pumping Station, \$1.6 Million Project, Minot, North Dakota.
5. Onalaska Dam Rehabilitation, \$3.65 Million Dam, Culverts Rehabilitation, Onalaska, Wisconsin.
6. Genoa Pump Station, \$0.6 Million Project, Genoa, Wisconsin.

SANITARY SEWER, STORM SEWER & DRAINAGE

1. Minneapolis Convention Center, Minneapolis, Minnesota
Design of sanitary sewer, storm sewer and drainage for the new \$150 million project.
2. University of Minnesota Transit way, Minneapolis, Minnesota
Design of approximately two (2) miles of 12” to 36” storm sewer.
3. Copperfield Housing Project, Robbinsdale, Minnesota
158-unit housing project on 3.25 acre site involving design of grading, sanitary sewer and storm and sewer.
4. Cinnamon Ridge Housing, Eagan, Minnesota
264-unit housing on a 20-acre site involving grading, design of sanitary sewer and storm sewer.
5. Lourdes Square Housing, Minneapolis, Minnesota
46-unit housing site involving grading, design of sanitary sewer and storm sewer.
6. U.S. Embassy, Santiago, Chile
Design of sanitary sewer, storm sewer and drainage for the new \$53 million Embassy.
7. Century Hills Shopping Center Annex, White Bear Lake, Minnesota
Storm drainage design including acquiring permit from Rice Creek Watershed District.
8. Western Dakota County Court Facilities, Eagan, Minnesota
Design of storm drainage system and parking lot.
9. North Hennepin Community College, Brooklyn Park, Minnesota
Storm sewer design for the new Business Technology Building.

10. Grant Street Reconstruction, Wabasha, Minnesota
Design of sanitary sewer, storm sewer, and drainage for downtown area.
11. Brown Institute, Minneapolis, Minnesota
Design of storm sewer for the new Institute Buildings on Lake Street.
12. University of Minnesota Art Museum, Minneapolis, Minnesota
Grading, drainage and sewer design.

TRANSPORTATION PROJECTS

1. Road design package to widen and signalize T.H. 120, South of I-694 in Maplewood and Oakdale.
2. Design and construction plans to improve 9.5 miles of CSAH 19 a Natural Preservation Route for an environmentally and historically sensitive area along the Mississippi River wetlands in Crow Wing County.
3. Intersection reconstruction and signalization of the I-35 ramp terminal intersection with TH 60 in Faribault, Minnesota.
4. Coordinated subsurface utility designs for Hiawatha Light Rail Transit System construction.
5. Three (3) Bus Turnarounds and five (5) Park/Ride Facilities for MTC in Metro Area, Minnesota.
6. Left turn lane, Cliff Road, Cinnamon Ridge Housing, Eagan, Minnesota.
7. Laurel Village Curb Improvements, MCDA, Minneapolis, Minnesota.
8. T.H. 610 Phases III and IV Utilities Design, Brooklyn Park, Minnesota.
9. Minnehaha Parkway over T.H. 55, Minneapolis, Minnesota.

WASTE DISPOSAL

Retention ponds, pumping station, and force main, St. Paul Water Utility, St. Paul, Minnesota.
